Dear Valued Customer

**RE: Radiation Declaration**

DSP is dedicated to providing you, our valued customer, with high quality, fit for purpose steel that also meet applicable environmental regulations.

DSP certifies that, to the best of our knowledge, the goods to your company (steel coils and derivatives thereof) are free from radiation,

A radiation study confirmed that no radioactive activation occurs during the processing of our products.

Radiation control of DSP products is ensured through:

- Strict controlling of the materials and finishes that are used in our products;
- Radiation Control Declaration(s) from our suppliers to ensure compliance of our raw material;
- Periodic screening of our products.

Please do not hesitate to contact us should you need more information.

Yours faithfully

**Ilze Venter**

Industrial Costing and Compliance Manager

**Duferco Steel Processing**
